THE EASTER SPIRIT

Easter in all its true and deep meaning is here and all the churches have arranged special services and music. Let the outpouring be general and take the children along and then plan to make it a regular duty. If you want to be a 100 per cent citizen help support some church. Take an interest in all matters that serve to make life what it should be.

DOCTORS FIND FLIER CONEY'S SPINE BROKEN

(By Associated Press)

Natchez, Miss., March 26.—With his back broken and his body paralyzed from the chest down, Lieut. Coney, transcontinental flyer, whose airplane crashed near Crowville, La., yesterday, while he was attempting a record-breaking flight from Jacksonville Fla., to San Diego, Cal., today, was battling for his life in a Natchez hospital. The physicians said he had about one chance in ten to recover, but the flyer himself remained tranquil, and expressed the hope he would yet be able to make the flight.

CROWN FORCES WRECK AND BURN HOUSES, SHOPS

(By Associated Press)

Westport County, Mayo, Ireland. —Pandemonium prevailed here early today when crown forces engaged in recent ambush near here. There was continuous gun fire on various parts of the town for several hours. Houses and shops were wrecked with bombs, and furniture and other effects were burned.

TWENTY KILLED IN BERLIN RIOT

(By Associated Press)

Berlin, March 26.—Twenty rioters were killed when the security police in Eisleben repulsed an attack upon the city hall last night. The police casualties were two killed and three wounded. General fighting was reported today from Hettstedt and Mansfeld.

VERMONT FARMER IS ACCUSED OF KILLING WIFE

Edward Garrow Arrested in Connection With Death of Woman Which Occurred Last November

(By Associated Press)

St. Albans, Vt., March 26.—Edward Garrow, a prosperous farmer of Franklin, who was brought to the county jail here last night, charged with the murder of his wife on November 30, 1920, strongly protested his innocence today. Mrs. Garro was found dead with two bullet wounds in her head, and a verdict of suicide was accepted at first, but when rumors of trouble over a servant girl to whom it was held Garrow had paid attention, reached the ears of States Attorney Rowley of Franklin, he ordered an inquest. More than 20 persons were examined, and the body of Mrs. Garrow was exhumed and an autopsy performed late in December. A report of the autopsy has never been made public, and the arrest of Garrow yesterday on an indictment returned secretly by the grand jury was the first public announcement of the nature of the report. Mr. H. Alexander, the newly elected states attorney, said today that the case would probably be tried at the present term of the Franklin county court.

St. Albans, Vt., March 26.—To the sheriff who made the arrest Garrow declared he was not responsible for his wife's death, and did not know of it until he returned from the village, and that he was informed by the hired girl. Garrow is also said to have told the sheriff that a man whom he named had become angry because Mrs. Garrow had discouraged his attentions to her 18-year-old daughter.

SEARCH FORESTS OF FLORIDA FOR LOST BALLOON

(By Associated Press)

Pensacola, Fla., March 26.—On the theory advanced by Lieut. Reed, instructor in meteorology at the naval station here, that the naval balloon missing since it left here Tuesday evening, with five men aboard, could not have drifted to sea in face of southerly winds prevailing, where it was last reported a naval dirigible with two days' supplies and a double crew aboard, left here today to search the forest of west Florida. Lieut. Reed believed that the crew of the drifting bag would have cut away the basket and prevent it dropping into the gulf, and would have taken refuge in the rigging. If the basket had been cut away he said the bag would have risen and he believes that the prevailing winds would have blown it inland.

Several local residents have discovered a dandelion already blooming on their lawn.

TRADE RELATIONS WITH RUSSIA OUT OF QUESTION

(By Associated Press)

Washington, March 26.—Conditions laid down by the State Department as pre requisite to any resumption of trade relations and Soviet Russia while dealing exclusively with the economic frailties of the Soviet system were regarded today as striking so fundamentally at its entire structure as to have ended practically all possibility of an early resumption of commercial intercourse between the two countries.

STEAL 500 BLANK PERMITS WHICH PURCHASE LIQUOR

(By Associated Press)

Washington, March 26.—A storm warning for all federal prohibition agents was hung out today due to the theft at New York of 500 blank permits to purchase liquor from bonded warehouses. The service was authorized to look out for a deluge of forged orders and to scrutinize all permits presented.

FAIL TO LOCATE LOST BALLOON

(By Associated Press)

Pensacola, March 26. — In their search for the naval balloonists missing from the naval station at Pensacola since last Tuesday, air planes, dirigibles, and naval ships have covered approximately 8,000 square miles of territory without seeing a trace of the bag. The Navy Department was advised today the Commandant at Pensacola.

PAYMASTER GONE THE CRUISER CHESTER FUNDS SHORT $22,000

Ensign Joseph J. Lyman Missing From Boston Yard for Over a Week--Only $90 Found in Safe

(By Associated Press)

Boston, March 26.—The disappearance a week ago of Ensign Joseph J. Lynam of Baltimore, assistant paymaster of the scout cruiser Chester was followed today by the discovery and announcement that he had left a shortage of $22,000 of naval funds. A naval board of inquiry convened by Rear Admiral Dunn commanding the first naval district opened the Lynam safe this morning and found only $90, the money being wrapped in a carpet. Orders were issued to department of Justice and naval intelligence agents to search for him on charges of embezzlement and absence without leave.

Lynam who rose from the ranks, enlisted from Tennessee but in recent years his family had made their home at Newport, R. I. He has a wife and two children there. He is 31 years of age. Officers assigned by Admiral Dunn to inquire into his business within a few days of his departure, were called on to make plain that checks signed by the Ensign were returned unhonored with the statement that there were no funds to meet them, thus suspicion accumulated with the result that it was decided to open the safe. The bully carpet and the small amount of money were all that was disclosed. Naval investigators are understood to be checking up Southern American routes in their efforts to trace Lynam's movements.

BALL PLAYERS AGAIN INDICTED IN CHICAGO COURT

Eighteen Men Are Named in Papers Returned By Cook County Grand Jury

(By Associated Press)

Chicago, March 26.—One hundred and forty-four indictments naming 18 men have been returned by the Cook County grand jury as a result of the special investigation into the 1919 World Series. Eight separate indictments against each person were returned. The indictment named the 13 men indicted at the first investigation and also five men charged with taking part in arranging a conspiracy. These men were Carl Zork and Ben Franklin of St. Louis, Ben and Louis Levi said to be from Des Moines and David Zelser address unknown. The case against 7 players recently were dropped by the state on the grounds that there was insufficient evidence available to convict. The cases against the other men indicted last fall were taken off the court call.

INVESTIGATE LABOR TROUBLES IN BOSTON

By Associated Press)

Boston, March 26.—Governor Cox made public today that early next week he would probably name a committee to investigate the building trade and labor troubles in this city, and report on what steps should be taken in the public interest. The Governor reported that he had reached the conclusion that there was "something doing" in the building industry which has been tied up several months, being due in part to the failure of the employers association and the union to agree on wage price lists.

HAVE DOUBLE BIRTHDAY PARTY

Misses Ruth and Catherine Meagher, daughters of Mr. and Mrs. Thomas F. Meagher, of 24 Spring street, celebrated their fifth and third birthdays Thursday afternoon at their home, by entertaining a number of their little friends. The usual children's games were played, and prizes awarded.

The table was prettily decorated with a large Jack Horner pie as a centerpiece, and had streamers running to each plate. There were two large birthday cakes, each having the requisite number of candles. Dainty refreshments were served, and each little guest received a pretty favor.

The decorations and favors were symbolic of the season. Those present were: Helen Godfrey, William Brooks, Grace Sweet, Arnold Griffin, Elinor Howell, Gerard Armstrong, Ruth Meagher, Howard Griffin, Catherine Meagher, Buddy Thompson and Roberta Meagher.

JAPAN DEFENDS HER MANDATE OF ISLAND OF YAP

(By Associated Press)

Tokio, March 26.—Japan contention under the mandates of the former German possession in the Pacific ocean, including the Island of Yap, are outlined in a 700 word communication issued by the Foreign Office today. Japan will look to the moral and material happiness of the inhabitants of the islands and will soon supplant the naval administration of the present government with a government under the spirit of the mandate and not the establishment of a military or naval base on the islands. It calls attention to the exaggeration of the military importance of the island, whose total area is smaller than Rhode Island and Yap contains but eight square miles less than one third of Guam and the harbor is barely capable of holding three steamers whose combined tonnage would exceed 9000 tons. The island has no natural value except for its cable facilities and if it were not for these it would be a barren island in the Middle of the ocean.

TUG BOAT STRIKE SETTLED

(By Associated Press)

New York, March 26.—The offer of conciliation was recived by Thomas B. Healey, chairman of the Atlantic and Gulf Coast conference of the marine engineers' beneficial association, who yesterday sent a telegram to the Secretary of Commerce, asking for an investigation. Mr. Healey immediately sent orders to all Atlantic and gulf ports for strikers to return to their boats and to await the outcome of the conciliation efforts. Wage reductions of $35 and $15 per month, put into effect on March 1 by two boat owners, brought about the walkout, it is said.

BARS REAL BEER IN NEW YORK GROCERIES

New York, March 25—Ex-Atty. Gen. Palmer's recent opinion that beer of more than half of one per cent alcoholic content may be sold as medicine does not mean that it can be dispensed by the corner grocery, Chas. R. O'Connor, New York federal prohibition director, declared today.

"The suggestion that the corner grocery," he said "by simply employing a pharmacist, perhaps for a few hours a day, will be permitted to obtain a permit to dispense liquors at retail is without foundation.

"So long as I am federal state prohibition director no person not a pharmacist, or in good faith employing a pharmacist and operating a drug store, will be permitted to have a permit to sell liquors at retail unless I receive instructions from my superior officers at Washington to the contrary—and I am not expecting such instructions.

"We are at present operating exactly as we were prior to the attorney general's opinion, and will continue to do so until the new regulations made necessary by said opinion are promulgated by the Washington authorities."

FAIR HILL ESTATES

Formerly the Prof. Parsons Property

When the World was created there was a lot of land made, and there was a lot of water spread about the land—a lot of it. But there was not a lot of land created near the water. Not a lot of seashore.

x x x x

And making the seashore was not a very good job—for a great part of the seashore was marsh, or a strip of sand with water in front and marsh behind.

x x x x

Some of it was a good job, like **Fair Hill Estates.** But most of it has been grabbed up and is not available.

x x x x

But **Fair Hill Estates** is available. A woman from Dover wrote me and asked me if I was going to let the Public in on the property—to buy some of it. I told her that if the Public had some money in its pockets it could come in.

x x x x

And they are coming. I have had ten letters about it already, and this is my first ad. How did they hear about the property, in Dover, in Manchester, in Malden, in Lowell, in Boston, and several in Springfield, my home town?

x x x x

Do you want to buy a lot on **Fair Hill Estates?** Don't delay. I can see they are going to go like hot cakes, and the choice lots always go first.

x x x x

Come down to the property to Fair Hill Manor, the big house that you will see back in the pines from the shore. I am living there. Come any time. Come Sunday if you like. We can look it over together even if we don't sell it on that day.

Cash and Carry

If gas were sold at the corner grocery like other things, would it be cheaper? Yes, indeed. By paying cash on delivery and carrying your gas with you, you could get a big bag full for a penny. And for a dollar—well, we leave it to your imagination.

But that isn't the most interesting thing. The fun would commence when you tried to use the gas. "Now that I have it," you would say, "what am I going to do with it?" And immediately you would discover you had bought the wrong thing; that it was gas service you wanted and not a bag full of gas.

There is a big difference. *Gas without service* is of little use to anyone. But *gas with service* is a necessity. One is mere *vapor;* the other, *fuel*—clean, efficient, reliable—ready when you want it, where you want it.

You speak of street car service, telephone service, train service, mail service. Why not gas service? That's what you buy, use and pay for,

The term "gas bill" is misleading. It should be *"bill for gas service."*

ALLIE REFUSE GERMAN REPLY TO NOTE

(By Associated Press)

Parish March 25—The eGrman delegation here today delivered, to the Allied Commission the German reply to the Allied note sent yesterday giving Germany warning that penalties would be imposed unless playment of 12,000,000,000 gold marks, the balance of the 20,000,000,000 marks were made before the first of May. The commissioners decided that the reply could not be received in its present form and refused to accept it. The delegation agreed to re-draft it, but will not have it ready before next week.

CONEY HAS FALL AND IS FATALLY INJURED

Monoe La., March 25—Lieutenant W. D. Coney, Army Air Service, fell near Crowvile, La., at 7.30 a. m. today while attempting a return flight from Jacksonville, Fla., to San Diego, Calif. According to report reaching here he received injuries which may prove fatal. His plane was wrecked. Coney's back is believed to have been broken, but he was reported conscious at noon. He is now at the farm of Mose Lanier, upon whose premises he fell.

The scene of the accident is in an isolated section of Franklin parish and it was several hours after the accident before the first news of it reached this place. Lieutenant Coney was attempting to land after engine trouble had developed and the plane fell about seventy-five feet. He was flying over a swamp wilderness in northeast Louisiana when the engine got into difficulties.

The injured aviator is being moved to Natchez, Miss., for hospital treatment. He is being taken over swamp roads for a distance of eleven miles to Winnsboro, where he will be placed aboard a train.

A village doctor said that besides a broken back Lieutenant Coney apparently had internal injuries. Owing to his critical condition the trip to Winnsboro was a slow one. The aviator was unconscious when he was found. He regained consciousness some time later, but was unable to say anything except that he had had engine trouble and was seeking a landing place when he smashed against the tree.

Coney "hopped off" at 1.10 o'clock this morning from Pablo Beach, Florida, in an effort to make a one-day, one-stop airplane flight from the Atlantic to the Pacific coast, landing at San Diego, California. He planned to make his only stop at Dallas, Texas, before noon. Weather conditions were reported good so far as visibility was concerned, but strong head winds were expected to hold down his speed. He had before him a journey of 2070 miles.

On his recent flight to Jacksonville from San Diego the actual flying time was 22 hours and 27 minutes, but the distance traversed was longer than over the return route, as he lost his way.

The machine used on the flight today is the same in which he flew eastward, but it had been overhauled and a new propeller installed. The flier was unaccompanied. He wore electrically heated flying togs and carried as food chocolate cakes and hot coffee.

Several hundred persons including his mother and relatives from his home town of Brunswick, Ga., were on hand and gave him a cheering send-off when he took the air.

TOO ILL TO WORK

A Mother Tells How Her Daughter Was Made Well Again by Lydia E. Pinkham's Vegetable Compound

Philadelphia, Pa.—"At the age of sixteen my daughter was having trouble every month. She had bad pains across her back and in her sides, her back would pain her so that she could not do her work and would have to lie down. My married daughter recommended Lydia E. Pinkham's Vegetable Compound. She took it faithfully and is now regular and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter."—Mrs. KATIE EICHER, 4034 N. Fairhill St., Philadelphia, Pa.

Standing all day, or sitting in cramped positions and often with wet feet, young girls contract deranged conditions, and before they are hardly aware of it they develop headaches, backache, irregularities, nervousness and bearing-down pains, all of which are symptoms of woman's ills. If every mother who has a daughter suffering from such symptoms would profit by the experience of Mrs. Eicher and give Lydia E. Pinkham's Vegetable Compound a fair trial she may expect the same happy result.

U. S. REFUSES TRADE RELATIONS WITH RUSSIA

(By Associated Press)

Washington, March 26—The American government notified the Soviet authorities in Russia today that resumption of trade relations between Russia and the United States could not be considered until fundamental changes are made in the economic system underlying the Soviet Regime. Safety of human life, the protection of property rights, free labor and the observance of the sanctity of contracts were among the requirements laid down in a note dispatched today by Secretary of State Hughes, before the doors of commerce can be opened.

The note added that proofs of the establishment of such changes must be furnished before this government can even discuss the subject. The fundamentals by which the Russian productiveness can be brought about are by these means only and in this way alone can Russia hope to re-establish herself with the other countries.

BIG CUT IN FARM PRODUCTS

(By Associated Press)

Washington, March 25—The decrease in the wholesale prices in produce was set forth in the Department of Agriculture bulletin issued based on the prices in ten of the leading cities. Potatoes a year ago were selling wholesale at $5.75 per hundredweight and today they are $1.31. Onions were $6.25 and now are 7[illegible] cents per hundred weight. New cabbage was $6.25 and now it is $3.25. And cold storage supplies were $8.75 and now are $5.50.

The Portsmouth Auto Body company's bodies attracted a great deal of favorable attention at the Automobile show in Boston last week.

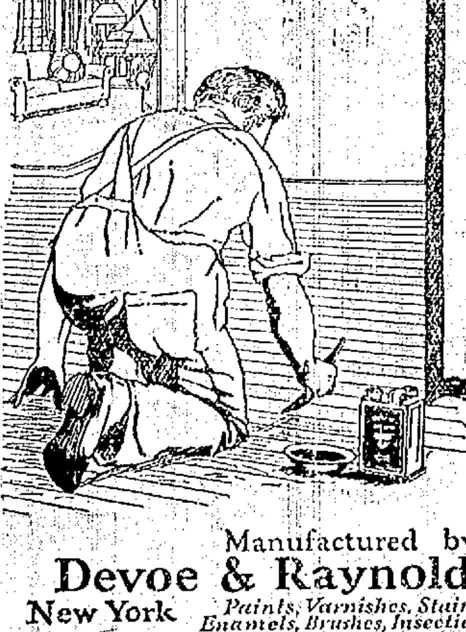
DEVOE

MARBLE FLOOR FINISH



If you could only *see* your unvarnished floors

through a microscope—!

IF you could *see* the millions of tiny holes in which the dirt and germs accumulate—

If you could *see* how every one of the thousand daily steps wears away the fiber of the wood—(that's what makes scrubbing so hard)

—you'd varnish the floor before the day was over.

Devoe Marble Finish is ideal for this purpose. It puts a hard, durable film between the feet and the floor. It fills the pores of the wood; gives it a smooth, glossy surface, easily cleaned with mop and broom.

Make a Beginning.

The value of what may be called the savings-bank habit has been emphasized in these columns many times. The habit of laying by something for the proverbial rainy day is one that should be formed and adhered to by all, and especially by people of small means and having little but their earnings to depend upon.

And it is probable that the habit of saving would be more common than it is were it not for the fact that so many people feel that what they might deposit in the bank is so insignificant as to make the beginning hardly worth while. So the little money that would make, indeed, a very small bank deposit is expended, in many instances unnecessarily, the bank account is not started, the years roll by with a swiftness that is unnoticed until it is too late and men find themselves with their earning power exhausted or nearing its end, without that provision for old age which it is the duty of every man and woman to attempt to make.

The mistake of failing to start a bank account because the start must necessarily be small is admirably pointed out by a bank in a small New England city, which in a circular issued for the purpose of interesting people in this important matter calls attention to certain facts that are worth remembering. It speaks of a man who said he felt that such deposits as he could make would be so small that he hardly felt justified in "bothering" the institution with them.

The bank in its circular does it sbest to discourage such a view and truthfully says: "It isn't the occasional big things that makes success—rather it is the repeated daily or weekly habit. The man who has a purpose in life—an idea—can't reach it in a day, but carefully lays his plans and builds on them steadily as circumstances permit. Even the great corporations have their "sinking funds"—savings accounts in reality—by which they pay off their indebtedness by setting aside a small portion of their earnings at regular intervals. By this plan debts are paid, emergency funds established, or capital provided for special purposes. The small amount, deposited at regular intervals to your savings account, will run into figures never dreamed of by one who has not followed the plan. You can apply the "sinking fund" principle to your day-to-day saving for the home, the business opportunity or whatever idea you may have in mind."

This is all strictly true, and it is a pity that there are so many who have not grasped this truth and governed their practices by it. The notion is altogether too common that nothing practical is to be gained through the saving of small amounts, whereas it was just such saving that laid the foundations of the greatest fortunes.

It is a sore mistake to ignore the virtue of small beginnings, and especially in the matter of providing against the day when the earner will fre mone cause or another, find himself on the sidelines.

If saving has not already been begun it should be started without further delay, no matter on how modest a scale. Let it never be forgotten that even small savings will, as the bank says, "run into figures never dreamed of by one who has not followed the plan." It is the duty of every self-supporting person to take some thought for the morrow, and in no way can such thought be translated into more effective action than by starting a savings account, if so be it this important duty has thus far been neglected.

According to advices from Washington there was shipped from Malaga, Spain, to this country, during the first year of national prohibition five times the amount of wine sent here in the ten preceding years. This would have a suspicious look were it not for the qualifying statement that it was all for "non-beverage" purposes.

There has been a slight drop in coal prices in some cities, but there is nothing to indicate that New England is to see cheap fuel this year. However, the wholesalers are looking for trade and advising the retailers to "do their shopping early," which is a more or less encouraging sign.

Some parts of the country are already reporting damage to the fruit crop. Whether the peach crop has been wiped out is not yet stated, but doleful news from the orchards may be expected at any time, followed in due course by a plentiful supply for those who "have the price."

Canada has raised the head tax on immigrants to $250. Perhaps the United States could solve the immigration problem quickest and best by establishing a tax which would help to swell the revenues and letting 'em come.

In order to aid the public in locating the profiteering one of the Chicago packing houses advertises in a Boston paper that its beef products were wholesaled in that city last week at an average price of less than 17 cents a pound.

Madison, Me., has offered a reward of $1,000 for the conviction of the person who recently sent an infernal machine to Dr. Pepper of that city, and it is to be hoped that some one will be able to claim the money.

A Bald Statement

Uneasy lies the head that bares a crown.

A Statesman With a Future

(From the New York Herald)

In two months and a half as the chief executive of New York State Governor Miller has loomed large as a public man of very great qualities. Indeed, he already has the seeming of the biggest figure in American political life.

English Tributes to Mr. Davis

(From St. Columbia's Magazine for March

We part with His Excellency Hon. John W. Davis, the American ambassador, and Mrs. Davis with no ordinary regret. During their only too short stay in this country, Mr. and Mrs. Davis made St. Columbia's their place of worship, for Mrs. Davis was born and bred a Presbyterian. Probably no more naturally distinguished or beloved ambassador ever represented a great power at the Court of St. James, and in parting with him—to a probable career of even more pronounced distinction—we lose the presence of a great friend, although fortunately, not the continuance of a great friendship.

(From the British Weekly)

The very popular American ambassador, Mr. J. W. Davis, was entertained by the Pilgrims at a farewell banquet over which the Prince of Wales presided. The prime minister, in a telegram of apology, described in a line of great ambassadors with which the United States of America has honored her relationship with Great Britain. The speech of the retiring ambassador more than justified Mr. Lloyd George's compliment and the not less felicitous tributes paid by the Prince and by Lord Curzon to his services in the cause of British-American friendship.

Regulating Immigration

(From the New Bedford Standard)

It is a pity that people in Portugal should have to expend time and money for a trip to New Bedford to learn that there was no work to be had here. Apparently the fact that there is and has been considerable unemployment was not known to, or at least fully appreciated by them. They paid their money for passage to America expecting to find work; now some of them are paying out more money to be carred home.

Any comprehensive immigration policy would provide for just such situations and check immigration at times when the labor market was over-supplied. There should be co-operaton between this Government and those of Europe to protect not only the United States, against a surplus of immigration, but the people of foreign countries against coming here at times when there is no opportunity for them to procure work. Recent arrivals from Portugal who are now gong back have suffered a distinct hardship which ought to have been prevented. t could have been prevented if immigration were properly controlled by a commssion whose business it would be to regulate the number of arrivals according to the country's labor needs.

Japan's Uncertain Throne

(From the San Francisco Chronicle)

The present struggle between the Satsuma and Choshu clans for the blind side of the Crown Prince illustrates the fact that the Japanese theory of the divinity of the emperor has never prevented the dominant politicians from treating him as a puppet. Time and time again the shoguns pulled emperors down and set new ones up. Dozens of emperors had to submit to dictation of all their household affairs by some Ashikaga or Tokugawa henchman. Most of the mikados were dependent for their food and clothes on the bounty of the shogun and when this dictator was stingy, as sometimes happened, the descendant of the sun goddess was reduced to actual want. It is all very well for the nobilit yto cajole the populace to a blind loyalty by the fable of a divine emperor. By the nobility itself this holy person has usually been shabbily treated.

Harding and Sinn Fein

(From the Toronto Mail and Empire)

The propriety of President Harding's telegram on the Boston Irish parade cannot be challenged. In his election campaign he made it plain that he was no demagogue. He flatly asserted that the Irish question was a domestic matter in which the United States had no business to interfere.

It would indeed be a scandal if the military and naval forces of the United States were permitted to take part in such a parade as that held in New York on St. Patrick's day. Some twenty thousand people marched, bearing such banners as: "England, Damn Your Concessions, We Want Our Country," "A True American Is a True Sinn Feiner," "English Civilization in the Twentieth Century: The Torch, the Bullet, and the Scaffold" "The English Has Has Wrecked Over 100 Irish Cities and Towns" It is true that some veterans of the Great War paraded in uniform, but as they had been discharged from the Army they had perhaps a right to wear their uniform, even though the exhibition was in questionable state. Of course the great majority of the celebrators were Irish Roman Catholics, many priests being among them, but there were also the well-known Germans, Dr. von Mach, chief speaker at the Rhine Horror" meeting; George Sylvester Viereck, editor of the Fatherland, and Dr. William Popcke, president o fthe United German Societies. These worthies were actually on the reviewing stand and prompted a priest to remark: "They are the sort of persons who are bringing disgrace on Ireland" Demonstrations of hatred of Britain will no doubt continue in the United States. Irrespective of what happens in Ireland, but they will have no sanction or sympathy from President Harding.

Which is Which?

(From the St. Paul Pioneer Press)

DeValera says that the people of the world must realize that might and right are contending in Ireland. Bless his innocent heart, whenever there is a contention these are the contenders. But the important question is, Which is Which?

Be American, Begone!

Duties First, Then Rights

(From the Chicago Journal of Commerce)

I'll play the game straight, and expect others to do likewise," says Secretary Davis. "Employers and employees have their duties one to the other, and both to the public, as well as their respective rights. I will endeavor to secure from both a proper recognition of their duties as well as their rights."

Straight talk, and it appeals to the public as the right kind of talk. Here's hoping we shall have law enforcement from Davis, unimpeded b social or economic proppaganda from any source. A square deal between employers and employed, compelled by the strong hand of the law, will be what both deserve, whether they like it or not.

PEOPLE'S OPINIONS

Some Good Suggestions for Eliot—Take Complaints to Headquarters.

Editor Herald:—

You will kindly pardon the intrusion of a letter into the columns of your valued paper. This is only that a wrong impression may not be created in the minds of any regarding the "moral and spiritual training" of the pupils in the Eliot High School. The teachers, who are united in this incidental phase of our school work, are glad that the complaint is no worse, and it was a very restful night of undisturbed sleep that the principal enjoyed after having read it.

The principal has always believed, and ever shall believe, that true success in "secular" life has as its basis "moral and spiritual" foundations, and he is glad to be able to help lay them. In fact, he believes there can be no real success without them. The shores of time are strewn with the wrecks of those who have sought to avoid these important factors. The principal half suspects that the "deeply interested citizen," at heart, does not object to them.

The teachers, the students as a body and most of the parents, have been pleased that from time to time the pastors of the town, and some from outside the town, have honored the school by their presence and by their inspiring and helpful messages that have instilled in the minds and hearts of all a desire for nobler living, and such messages have helped to create an atmosphere conducive to better study and to better work.

The teachers have been gratified to learn of the excellent standing the graduates of our high school have taken in their work in the higher institutions to which several have gone. The fact that in one or two instances a student attending a higher institution finds himself deficient in a study in a course he has elected, which study he might have elected in the high school, proves nothing.

The fact that a certain girl in school does not, without the assistance of her mother, spell readily or write good English, proves nothing. There are several students in the Eliot high school, as there are in all schools, who are not yet accomplished in either art. Even the principal himself is not. In fact, we have no Shakespeares.

I do not consider it my place to land in print, the work of student's "English, Algebra, Etymology," etc. Our work is under the frequent observation of a competent superintendent who has, when opportunity afforded, spoken well of it, and in our public entertainments it has spoken for itself to the pleasure and commendation of the citizens of the town.

If, however, I wish to mention in local items the fact that one of the good pastors of the town, or someone outside the town, whom the teachers know and in whom they have the utmost confidence, came into the school and gave a helpful address that is his own business and a pleasure he will not forego even if it does horrify an over fastidious and "deeply interested citizen;" and if I think it proper from time to time to speak to the young people of reverence for God and his Word, I shall not, I trust be so timid as to hesitate to do so.

The correspondent worries over the matter of time given to extraneous matters. As a fact, out of 200 hours in this term available for study and class work 8 1-2 hours have been divided among four different speakers, whose messages not only furnished relaxation from study, but were an incentive to nobler living. I do not believe the taxpayers begrudge the school this privilege. The idea of religious "hobbies," etc., in the high school is too ridiculous for consideration.

It may be the "headmaster" is incompetent and seeks "to evade his duty," but the deeply "worried" citizen can easily find out for himself by visiting the school, or by consulting the students or the superintendent as to the truth of his insinuation.

The school has advanced until graduates have been accepted in colleges without examination.

He further expresses much concern regarding the possibility of the physical breakdown of those who attend the occasional social gatherings at the high school. We have held four such evening gatherings this term, attendance upon which was purely voluntary, and each of which closed at 9.30 o'clock. Each time the place was filled with happy pupils, parents, and friends, and all enjoyed themselves in a profitable way. We have heard of no one who suffered a nervous collapse—unless it be our worthy correspondent who was not present.

The principal realizes his mental deficiences, as do the other teachers their's. He claims no monopoly on knowledge, but he does claim to have an honest purpose for the best interests of his students, morally, physically, and spiritually; and he does know that the pupils and parents realize this, and in more than one way have shown their appreciation of it. That is a joy. He wishes he could please all, but shall not try to do so. The Master did not do that. We shall be very happy in our work if in the future, as in the past, we can win and retain the respect and confidence of pupils and parents.

It may not be out of place to suggest that if one has a grievance over any matter pertaining to school affairs, the better way always is to go directly to the teachers or to the proper school officials and state the matter squarely rather than, with evident malicious intent, to lug the thing into print and thereby attempt to bring about an embarrassing situation.

We believe, from what we know, that this is the sentiment of a large portion of the sensible people of Eliot who do not begrudge the school its good name and its success under its present management.

WILSON HAS AN ACUTE ATTACK OF INDIGESTION

Washington, March 25—Former President Wilson suffered an acute attack of indigestion today which caused hurried calls for medical assistance. It was said, however, that he had entirely recovered an hour after the attack. Dr. Sterling Ruffin upon leaving at 2.30 this afternoon said Mr. Wilson was able to eat a light lunch.

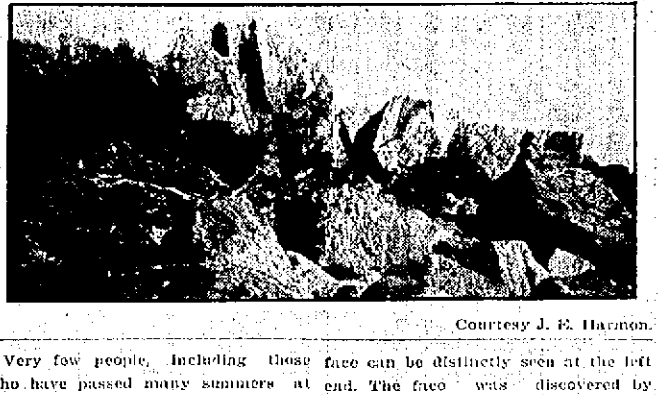
MAN'S FACE VERY DISTINCT IN ROCKS AT WALLIS SANDS



Courtesy J. E. Harmon.

Very few people, including those who have passed many summers at Wallace Sands, are aware that a man's face is prominent in the rocks at the Portsmouth end of the beach.

By holding the picture end ways the face can be distinctly seen at the left end. The face was discovered by James E. Harmon, a Portsmouth boy, now living in New York city, who also photographed the same and had it enlarged.

Y. W. C. A. NOTES

Tomorrow afternoon, at the Girls' Hour, the story telling hour will be in charge of Mrs. Isaac Higginbotham, and it is hoped that there will be a large crowd on our first Easter Sunday together. Some of the Girl Reserves are going to bring flowers to the Y. W. C. A. tomorrow, and after the Girls' Hour we will take these to some shut-ins, that they may know that we truly have the spirit of Easter. Before the Girls' Hour, the general secretary will conduct the usual Bible class, which is composed of High School Reserves and girls older. We want to make this class very interesting and worth while. Come tomorrow and bring some one with you.

Several of the Grade School Corps met yesterday afternoon at the Y. W. C. A. Hall, and made scrap books, which will be sent to children in far-away institutions, or given to those here at home. At the same time, the freshman corps met to practice for the presentation, which it is to give at 8 o'clock. We are expecting to have a large crowd come to this affair, and know that once you come to Association Night, you will never fail to come to the others we will have later. This will be a time when the membership at large will hear about the work of the organization, and will be given a chance to ask questions or make suggestions.

WOMAN'S GUILD MEET

The Women's Guild of the North Church, having recently reorganized, have had an unusually busy season. In addition to their usual missionary work, they are doing weekly sewing for the Children's Home, for the Wentworth Home, and for the Hospital. They have also made, chiefly from second-hand clothing, a large number of garments for families recommended by the Family Welfare Association. They are furnishing weekly entertainment for the Naval Hospital.

To furnish finances to carry on this work effectively they are holding a sale of food and candy, Jamaica baskets and aprons on Tuesday afternoon and evening.

Hot waffles will furnish a special attraction.

Portsmouth appears to be infested with "hand painted dolls" just now. Not for years has the city seen so many of these strangers in our midst. They are attired in the latest sporting costumes.

STATE TAX BOARD COLLECTORS AND ASSESSORS HERE

Fletcher Hale Says Exemption Is Menace to State.

Fifty or more of the selectmen and tax assessors of Rockingham County assembled here today in the Probate court room to meet the members of the State Tax Commissioners.

The meeting opened with a talk on taxation by Fletcher Hale, a member of the board from Laconia. Mr. Hale gave a very able discourse, and those present were exceedingly interested in his talk from start to finish. He gave a good part of the time to exemption in New Hampshire, and the tax situation as it stands in Portsmouth and Rockingham County. He declared that exemption under any condition was a menace to the state, and it should be entirely wiped out. He made it known that he was decidedly against it, and as he was a member he worked for the elimination of the law on exemption. He complimented Rockingham County officials for their assessments and collections. He dwelt for some time on the fact that some selectmen and collectors failed to take advantage of the law and collect interest from delinquent payers. This he said must be done in all cases, regardless of who is concerned. The selectmen and collectors should show no partiality. They should get the money.

During his address it was brought out that the exemption in Rockingham County has reached $1,000,000, and the seven-eighths of it is in the city of Portsmouth. The speaker claimed if this was not allowed it would mean quite a reduction of taxes for Portsmouth. At the conclusion of Mr. Hale's remarks quite a bit of humor was injected into the meeting on various members who brought the question, "Is a tax bill a debt, and who is responsible for the poll tax of a wife after her death?" John T. Amey, the other commissioner present, explained the questions, and he claimed that he could find no law in which a husband can be held responsible for his wife's tax after her death. Mr. Amey also explained the power in the hands of collectors, and said the same measures should be applied to women as to the men in the matter of collection. The law was identical.

The question of cider came up and one selectman sought much information regarding the selectmen's rights as to entering a man's cellar to get the valuation of his cider in case the same was being sold for vinegar. Finally this question reached such a point that Mr. Amey informed the men on the floor that they had better take some of their troubles up with Law Enforcement Commissioner Lewis.

NO TRACE OF NAVAL BALLOON

(By Associated Press)

Pensacola, Fla., March 25—Continued search today by dirigibles, seaplanes, eagle boats and sub-chasers, have failed to discover any trace of the missing naval balloon in command of Chief Quartermaster C. H. Wilkinson carrying four students who left the naval station last Tuesday and who were last reported drifting over the gulf 200 miles sout hof St. Andrew's Bay. Naval officers however have not given up hopes. Supplementing the work of the air forces the Eagle boats and subchasers cruised over a radium of 300 miles starting from St. Andrew's bay, in a manner similar to that used when hunting for submarines. Despite the failure of today the officers are still hopeful of finding the men.

Many school girls and boys are home for the Easter vacation.

Looks like dull weather for Easter.

CLERKS WIN OPENING NAVY YARD MATCH

The Clerks of Building 81 bowling as steady as veterans defeated the Shipwrights team in the first of the series of matches for the championship of the navy yard, at the Arcade alleys on Friday evening. It was without doubt one of the most interesting matches for years and it was attended by rooters for both teams who packed every available bit of room in the alleys.

The teams had taken entire possession of the alleys for the evening, the first and fourth alleys were covered and filled with chairs for the spectators and the admission was by ticket. It was a very well arranged affair and General Manager Hett of the Clerks who was the Tex Rickard of the match, is due for a lot of credit.

The rooters of both teams were there in great numbers and they certainly did root, which makes the score of the Clerks all the more creditable for they bowled a string of 1425. Captain L. S. Adams the Industrial Manager, always willing to boost anything that effects the morale of his working force, was present and bowled the opening box.

The Shipwrights were off form and while not making any excuses, mentioned the fact that the members of the team were so anxious to show off before the ladies that they fell down, whereas the Clerks are so used to performing before the ladies that they simply rolled their heads off. The clerks rolled a very consistent game, every man was at his best and no man fell below 88. Rowe shot the high string for his team with 298. Dow and Jones were the only two of the Shipwrights team to show their usual form, Dow shooting a fine string of 314 and his 123 was high single and Jones rolled 277, but the rest of the team were a way off.

It was a good match and there was a lot of fun, but the shipwrights are betting that the next game on Wednesday evening will be a different story. The second match will be rolled under the same condition and an even greater demand is expected for the tickets.

"Barney" Oldfield was official announcer and referee of the match.

After the match the alleys were turned over to the ladies and Miss Heeney and Miss Leach were tie for high string of 73 and each was awarded a box of candy. Next Wednesday two teams from the young ladies of the yard will bowl.

M'GRAW IS CANDIDATE FOR COACH

Bernie McGraw of this city is one of the candidates mentioned for the position of head coach at the Portland High school. McGraw is a Bowdoin graduate and has coached Hebron Academy and elsewhere. Jack Maloney assistant to Coach O'Reilly of Georgetown University is the latest candidate to be mentioned for the position.

The number of candidates who would be willing to accept the position indicates the importance of the position. Portland has for years, engaged the best for the High school athletes and they have always had excellent teams in all of the branches of school boy sports.

SUBMARINES ORDERED TO ASIATIC FLEET

Orders have been received at the Navy Yard to rush all work on submarines of the S-type so that they may sail from the yard with the mother ship by May 12. The order gives instructions for the work to take precedence over all other yard work and all of the subs, eight in all are to be ready to sail for the Asiatic station.

The submarines will include some of those built at Bridgeport, in addition to those built at this yard. Those built at Bridgeport have had to be almost rebuilt, so numerous were the changes made in their construction after they were brought to this yard. Two of the submarines will be floated out of the dock this forenoon.

MAX MILTON
BARNET KARSH

Benny Leonard world's lightweight champion and Rocky Kansas of Buffalo, probably will be the principals in the stellar bout at the re-opening of Madison Square Garden as a boxing center next September. Tex Rickard announced that he would make every effort to arrange his championship battle for his re-opening card. The Garden promoter said that both boxers were under contract to box for him and intimated he intended to match them. Rickard said he had Kansas signed to a contract to battle Leonard March 17, a bout which was postponed when the lightweight champion was taken down with an attack of influenza.

However anxious he may be to resume his old position in the Yankee batting order, J. Franklin Baker does not intend to make the mistake of trying to crowd the work of weeks into a couple of days. Rather than assume the slightest risk of impairing his chances for a successful comeback, the Maryland farmer is conducting his conditioning campaign along the most conservative lines and according to a plan which makes no provision for haste. Though the onetime monarch of the home run clan drifted into camp a week ago last Thursday, he did not appear in uniform until the following Sunday, and his workout then was a very brief and easy one. His initial workout lasted fifteen minutes. He trotted around a bit, fielded a couple of bunts and walloped a few in batting practice. The first ball he hit was a liner to the right field fence and the next one a drive which would have been good for a double in any league.

At a recent hearing in Augusta before the Committee to Regulate Boxing in the State of Maine Jack Magee, athletic coach at Bowdoin college, said that three out of every five main bouts at Maine boxing shows are faked. In his statement to the committee Coach Magee said that under the present laws of Maine the Massachusetts boxers who come into the state for bouts got together before hand and 'framed' the bouts so that they would box a little through six rounds and loaf through the last six of a double six bout, and then, said he, "they rush to a telephone and tell the sporting editors that each won the bout. The committee was reminded that during the war boxing played a prominent part in the training of the men of both the army and navy. As a result of this the sport had been given a different position before the public than it formerly held, a higher position. John D. Clifford of Lewiston, author of the proposed bill explained his provisions to the committee and also discussed the reasons why the present boxing law failed to accomplish the results desired. He was of the opinion that the bouts should be extended to 12 rounds and a decision given.

Coach Jeff Tesreau of the Dartmouth baseball team yesterday picked 12 men from his squad for the Spring southern trip, which starts next Wednesday. The tentative first nine as picked by Coach Tesreau includes several of last year's letter men and several members of the freshman team of last Spring. The pitching staff now looks very good. The men chosen are Captain Ross, Merrill, catchers; Blake, Tracy, Gallagher, pitchers; Robertson, Bower, Bruce, Maynard, infielders; Lynch, Kopf, outfielders, Ross and Lynch can also be used in the box.

It is said that Young Kloby of Lawrence and Jack Britton, the welterweight champion will meet in Boston about the middle of next month. A new club is said to have the men's signatures to an agreement and other details attending the match ratified. Kloby, it is said, will receive $10,000 with a privilege of 30 per cent of the gross receipts, while Britton is said to be fighting on a straight percentage basis. The new Boston Arena is the spot in which the promoters anticipate holding the bout.

HIGH SCHOOL TEAM START BALL PRACTICE

The High school baseball candidates wee called out on Thursday for the initial practice and while the day was threatening there was a great many out. It is expected that nearly fifty candidates will be out on Monday and the process of weeding out the squad will begin at once. Athletic Director Sowle will coach the team and he has a good lot of material to start with.

There are three of last years pitchers available, Eastman, Tobey and Weeks and the back stop candidates are Hurley and Gelman of last years team. There are sure to be some new candidates out for the battery positions and it is hoped to develop one or more pitchers.

BASEBALL SEASON OPENED

The baseball season opened on Friday evening when the All Stars defeated the Baptist church Sunday school team at Ward's play grounds by a score to 9 to 4. Tobey was going well for the defeated team until the fourth when he blew and they secured seven runs. Weeks did the pitching for the All Stars and he was very effective. The score:

DAIRY AND POULTRY PRODUCTS

Reports from the Boston Produce Market for the week ending March 19 show poultry to be the only one of the dairy products that can hold its own in the up and down markets noted recently, and even this has had a none too healthy position until the holiday demand served to clean up the surplus supplies of fresh birds. Fancy roasting chickens have been in especial demand, prices on these advancing to 48 cents for the best and 45 cents for the 4-5 pound sizes, with a few capons reaching up to 60 cents. Fowl have also been in better demand, and not as plentiful, and are bringing 36 to 43 cents as to quality. Frozen poultry has not moved very well, and the undertone seems easy, but prices have held unchanged. The holiday season makes an exceptional demand for live fowl from some of the trade, and these have sold up 2-4 cents with the best large bringing 38 to 42 cents.

Eggs have been accumulating, and the money situation and general unsettled feeling in regard to what will be the low price of the season has caused trade to hold off buying for speculation and storage, and prices have receded steadily. The ordinary grades of western eggs are now 2 to 4 cents lower than a week ago, prices ranging 28 to 30 cents, while the lots put up in new cases and graded for storage have sold down to 31-32 cents. Near-by eggs have been held back by the farmers for hatching purposes, and prices on these have not been influenced to as great an extent, fancy grown hennery eggs now bringing 37 to 40 cents, with good demand.

The butter market has been the weakest of the lot, prices dropping steadily each day, until dealers lost about all confidence, and as usual, the extreme dull trade has contributed to force prices lower than necessary. Consumptive demand is good, but the make of fresh butter is steadily increasing, and in addition there is the factor of imports from Denmark to be considered, and the market appears only steady, although any sign of an advance will probably result in heavier buying and much higher prices. Fresh fancy 90-92 score is selling easily at 43-45 cents, and storage of the same grade slow at 40 to 42 cents a pound.

The next sales list will be issued March 29. All items to be listed must be in the office of the Bureau of Markets not later than Monday, March 28.

ELIOT

Eliot, March 26.—David Reid of Boston and Rev. C. H. Berry of Eliot, were guests of the high school Friday at the annual "sugaring off" given the students by Prin. Gilmore. Real Vermont maple syrup was boiled down to the proper consistency to wax on ice, and then eaten with doughnuts and pickles for relish. Mr. Reid delighted the students with Scotch songs and incidents and stories of Scotch life. Rev. Mr. Berry spoke most helpfully to the young people.

The final examinations being finished the records of work were given out.

Miss Bessie Patten, who for five years has been the efficient assistant in French and Latin in the high school and who has won many friends in town by her quiet and unassuming manner, will spend her vacation in Pittsfield, Me. Miss Patten has had several tempting offers in other and larger schools where the salary would be nearly double her present salary. She has preferred to keep her contract with Eliot.

Prin. Gilmore, who has been in the high school for over three years, was offered a salary of $2000 in a prominent Vermont school, $700 more than his present salary, soon after he had signed a contract for another year with Eliot. He has received of late a letter from this same institution holding out tempting inducements to come to it. He did not wish to break his contract with Eliot. If he did not feel that he had the respect and confidence of both pupils and parents, and the substantial people of the town, he would not care even to keep his contract.

Mrs. Edna Fernald who has made the commercial work so attractive and helpful a feature, and has won many friends, will spend the vacation in Eliot.

The high school baseball nine enjoyed a game Friday afternoon with the nine from Number 7. While the avoirdupois as well as the victory was with the high school team, the visiting youngsters played good ball and conducted themselves very commendably, so much so that it was noticed by a number that observed the game.

Two high class entertainments will be held under the auspices of the high school during the spring term.

HAVE COLOR IN CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Take one or two nightly and note the pleasing results. Millions of boxes are sold annually at 15c and 30c.

SAYS JAP NAVY NOT U. S. RIVAL

Tokio, March 25—Assertions that the Japanese naval program was being followed for the purpose of competing with the United States navy were denounced as "preposterous and absurd" by Vice-Admiral Tomosaburo Kato, Japanese minister of marine, in an interview today. He declared Japan was not trying to compete with the American navy, and that the Japanese naval program had been promulgated so that the empire could be defended against any emergencies arising in the far east alone.

K. OF C. NOTES

The annual ball which will be held on Easter Monday promises to surpass any yet given by the Knights. The Bostonia Orchestra of Boston has been secured and a treat is assured to the dancers. STEAMSHIP WANBY AT KENNEBUNKPORT POUNDING TO PIECES

All hope of saving the British freighter Wandby which went ashore on the ledges off Walker's Point, Kennebunk, two weeks ago has been abandoned. Captain David Simpson and the crew of 28 men were forced to leave the stranded steamer during the 50 mile gale which swept the coast last night and the ship is gradually pounding to pieces in the heavy seas battering her hull.

Captain Simpson and 27 members of his crew came to Portland today after abandoning the Wandby last night. Henry Clarke, mate of the ill-fated steamer, remained at Kennebunkport to guard the ship which is now the property of the insurance underwriters. Captain Simpson and the members of the crew will return to their homes in England and will probably sail on some ship from Portland within a few days.

For the past two weeks Captain Simpson and his crew had remained aboard the stranded steamer awaiting instructions from the owners in England or for some effort to be made towards floating their ship. Thursday night with the wind blowing fully 50 miles an hour from the southeast heavy seas were swept across the big freighter and she commenced to pound so that as a matter of safety Captain and crew abandoned the craft which seafaring men believe has found her last resting place. It is believed that the steamer will be sold for junk by the underwriters.

RAILROAD MEN ARE MUCH INTERESTED

They Are Wondering If Wage Cut Has Been Accepted.

Portsmouth employees of the B. & M. are greatly interested in the financial news of a Boston paper, to the effect that "The standing committee of the Association of Railway Executives met yesterday to recive a report of the special committee which recently met the representatives of th Big Four railroad brotherhood. Up to the close, the financial district had no news from this meeting, but it is believed in some quarters that a compromise may be reached regarding the railroad wage question which would prevent a long drawn-out discussion before the Labor board."

Whether or not this means that the railroad brotherhoods have agreed to a reduction in wages or reached some understanding as to other conditions of their contract still remains a mystery.

"SOMETHIN' DOIN'"

Every minute at the big Easter Dance at Freeman's Hall, Wednesday evening, March 30. Two full orchestras in a Battle of Music. The Foss' Novelty Orchestra of Biddeford vs the 8 Jazz Kings of N. H. College.

The largest crowd of the season greeted the Jazz Kings on their last visit here, and their success has been fully as great at Manchester, Portland, Haverhill and other large dance centers where they have played during the past season. This wonderful team has been booked by a large park dance hall for the coming summer.

The Foss' Novelty Orchestra is the best within 30 miles of their home town, and are always in great demand. In fact, these are the two best orchestras that we could secure outside of the metropolitan district of Boston. Concert 8-8.30 by combined orchestras (16 pieces) and then—the continuous dancing until 12.30. Soloists, novelties and other features. Don't fail to attend.

HOSPITAL FUND IS NOW $52,000

First Payment on Pledges Pleases the Officials.

Up to date Treasurer Lewis E. Staples of the Portsmouth Hospital, has received a total of $52,000 in the collections and first payment of pledges toward the $150,000. Treasurer Staples looks up the work so far as very encouraging, and believes that the full amount will be on hand at the expiration of the time allowed for collections, when the recent drive was made.

MASONIC HOME NOTES

At the regular Sunday night supper this week, R. W. George Scott, District Grand Master of the First Masonic District, and R. W. Charles E. Winn, District Grand Lecturer of Somersworth, N. H., will be special guests at which time R. W. Scott is scheduled to speak on some Masonic subject.

After the supper Mr. J. S. Doolittle, the oldest mason of this city now 87 years of age, will recite several choice jems of poetry for the entertainment of those that remain during the evening. Mr. Doolittle has been restricted to his home for the last two weeks and while not returned to his former strength hopes to be present and take part in the exercises of the evening.

On Saturday evening there will be a meeting of the committee in charge of the selling of tickets for our "Second Better Acquainted Dance, which is to be held at the Rockingham Hotel Tuesday evening of next week, March 29th and from present incomplete returns indicate that the sale of tickets would entirely exhaust the limited number on sale caused by the limited capacity of the dance hall.

During the next week the committee to be appointed to handle the big May Party and Ball, Monday, May 2, will send out invitations and full particulars of this important event. It is the purpose of the committee to make this the most popular and enjoyable affair of the winter. Brigham & Poole's full orchestra has been engaged together with the special banjoist and singer, that was so much enjoyed at the Elks' Ball earlier in the season. The dancing public are nearly unanimous in the opinion that Brigham and Pools orchestra, instrumental, vocal music, together with their specialities, the real live music of the day, is the most satisfactory combination of dancing music ever heard in this city. This orchestra will render a concert from 8.00 to 8.45, and after the two first numbers of the dancing all those present will see for the first time a Living Moving Square, Compasses, and Letter G, together with many other specialities and novelties provided for the entertainment of those that do not dance.

GOOD FRIDAY SERVICES

Good Friday, the most sorrowful day in the church year, was observed with special services at the Catholic and Episcopal churches in this city yesterday, and a large number were present. At the North Church last evening a union service was held, in which several of the other churches participated. The pastor, Rev. Lucius H. Thayer, had charge of the service. Rev. Alfred Gooding read the Scripture, and Rev. Isaac Higginbotham and Rev. Dr. Van Pelt. Prof. Woodman Bradbury, of the Newton Theological Institute, gave the address, and his able message gave inspiration to the large congregation in attendance.

The music was furnished by the church choir, the following being the selections: Anthem, "There is a Green Hill," by Hosmer; anthem, "God So Loved the World," by Stainer; duet, "So Thou Liftest Thy Divine Petition," by Stainer.

BOSTON POST COMMENTS

The entertainers who gave their services were rewarded with thunderous applause, and if we are to judge by applause little Pauline Mason won the hearts of the multitude.

This little dancing wonder had to respond again and again to the tremendous ovation given her. The Sari Waltz, and finally a music pantomime brought down the house.—Boston Post

American women spend $50,000,000 a year for face powder, and probably it is well spent, as it tends to a certain smoothness in the working of the face.

Read the comment of the Boston papers on the Mason Sisters, biggest dancing attraction ever brought to Portsmouth.

The social season will be very lively next week, opening on Easter Monday evening, the chief events being the annual ball of the Knights of Columbus at Freeman's hall and the Easter assembly for the members of the Country Club at the Rockingham hotel ball room.

Saturday at Scenic, the famous "Sister Team," Pauline and "Patsy" Mason, will eclipse everything ever shown in this city.

Easter will be fittingly celebrated in this city, and the local pastors will give able Easter sermons, and church quartettes and choirs will render elaborate musical programs, and the day will be one of joy and gladness in the churches. Easter lilies and potted plants will decorate the churches, and Easter concerts by some of the Sunday schools will be features of the day.

We are on the threshold of the joys of spring.
